Z046 (high profile four hose dispensers)

Z047 (high profile uni (two) hose dispensers)

OR Any dispenser manufacturer's vapor kit that converts a non vapor ready dispenser to balance vapor ready.

Breakaway Couplings

Healy Model 8701VV

Model 8701 which has been upgraded with a Healy
Model 715V (vapor valve kit) and labeled as such.

Flow Control Units

Healy Model 1301 or 1302

Pressure/Vacuum Valves(settings as specified below)

(Only threaded on accepted in Arizona)

OPW 523LP & 523LPS

Hazlett H-PVB-1 Gold label

Morrison Brothers 749CRB0600 AV

Husky 4620

OPW 523V

EBW 802-308 & 802-309

OR Any CARB-certified valve with the following pressure and vacuum settings, in inches
water column (wc):

Pressure: three plus or minus one-half inches (3.0 +/- 0.5") water column.

Vacuum: eight plus or minus two inches (8 +/- 2") water column.

Phase I Product Adaptors

Bravo B-70 B Swivel

OPW 61SA-1000 Rotatable

633LC Lock Clamp

CNI Locking Clamp, Part # 613BC

OR Any CARB-certified device which prevents loosening or overtightening of the Phase I
product adaptor.

***(Note: Adaptors which can not be prevented from loosening or overtightening
may only be used until December 31, 2003.)***

Phase I Vapor Adaptors

CNI Locking Clamp, Part # 611DB4AC

Bravo Swivel Vapor Adapter, B-75

OPW 633LC Lock Clamp

OR Any CARB-certified device which prevents loosening or overtightening of the Phase I
vapor adaptor

***(Note: Adaptors which can not be prevented from loosening or overtightening
may only be used until July 1, 2004.)***
